

Location:

Galvanized Steel Mesh Grate to suit 12" clear opening channels

Specification: T300-PGC-13-GM galvanized steel mesh grates are independently certified to meet Load Class C tested in accordance with EN 1433 (56,200 lbs (250kN)). The grate length is 39.37" (1m). The grates utilize the patented "Clipfix" grate locking mechanism. The system (channel and grate) provides longitudinal shift protection. Optional .5 m grates are also available in Load Class C (Part # T300-PGC-13-GM-500).
