

**R-1916 Series
Watertight Manhole Frame,
Bolted Lid**

Heavy Duty

Gasket sealed and bolted lid (stainless steel bolts are standard) make this casting ideal for subaqueous installation. For built-up manholes only. Also suited for low pressure, gas or steamtight application up to 20 psi. For higher pressure application, please send specifications. Lids furnished with Type "F" concealed pickholes (see p.16). Units are furnished with four 1" anchor holes – anchor bolts not furnished. Units are shipped assembled with T-gasket glued to lid, except **R-1916-A** and **R-1916-B**, which have flat gasket. Note: Bolting pads reduce effective clear opening (Dimension C) by 2" to 3". If "C" dimension is critical, select larger size. See **R-6462 Series** for more watertight units in 4" height.
